

Security Compliance and Consulting

DATASHEET

Overview

CNS have been providing Security Assessment Services to private and public customers alike for over a decade.

Whether FTSE 100 or SME, CNS provide pragmatic advice and services, individually tailored to each customer, to ensure that an organisation's security is enhanced and assets are protected.

CNS Group

- We are committed to consultant led, quality security testing
- We have a vast body of experience, plus testimonials, case studies and references
- We are CESG Green CHECK accredited (for over 10 years), CREST, PCI DSS QSA and CESG CCP accredited and all consultants are individually security cleared
- Our experience covers many industry sectors, including finance, public sector, police, media and travel
- Our reports are written by a person, not a computer, and accompanied by an on-site presentation and Q&A
- We work with FTSE100 customers, to mid-corporates and SMEs
- We have the experience and flexibility to deliver the right testing solution for you, not the most convenient one for us

Accreditations

- PCI DSS QSA
- PSN Service Provider
- ISO 27001
